DSLR-like performance  
to M-power image quality

The best of leading edge digital imaging technology, housed in a compact form, to deliver superlative image excellence.

24.2 MEGA  
PIXELS  
CMOS

ISO  
12800

## 24.2 MP CMOS Image Clarity

Breathtaking resolution from an APS-C sensor that captures image nuances.

## DIGIC 6 for superb & speedier processing

Working in unison with a superior CMOS sensor, DIGIC 6 helps deliver awesome quality in still and moving images.

## ISO range from 100-12800 (expandable to 25600)

High ISO Speed performance minimizes noise and exacts enviable quality even in low lighting scenarios.

## 3" TILT LCD TOUCHSCREEN

### Relish the flexibility of vari-angle shooting

The 3" intuitive Touchscreen tilts up 180° and down 45° to make for exciting perspectives. The power to control has never been so easy!

# MORE FOCUSED

## M-powered DSLR-like performance

The new Canon EOS M3 is monumental in performance even as it rests power, control and creativity comfortably within a compact and portable frame.

**Hybrid CMOS AF III**

**HYBRID CMOS AF III**  
*Achieves high speed Auto Focusing*

The new Hybrid CMOS AF III achieves fast and accurate autofocus when shooting still images and subject tracking during video recording mode. This newly-developed system is up to 6.1x faster than Hybrid CMOS AF, so you'll never miss out on memorable moments.

## 4.2 FRAMES PER SECOND

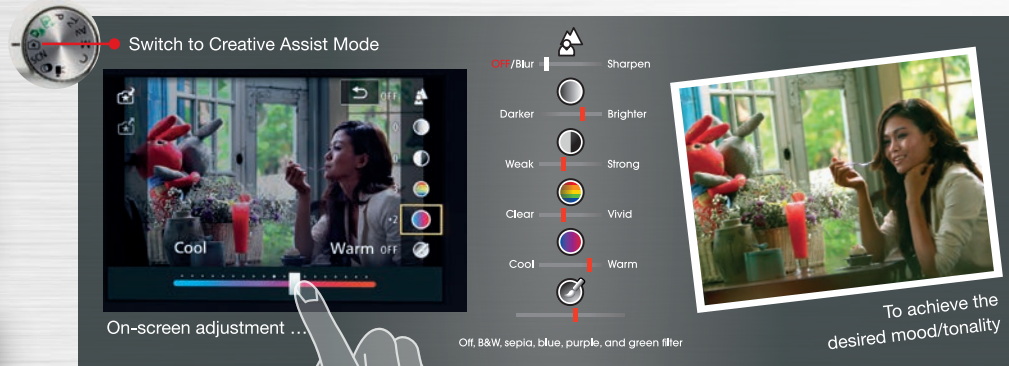

*Enjoy enhanced continuous shooting*

Whether shooting in JPEG or RAW format, you'll achieve up to 4.2fps continuous shooting – comparable to an entry-level SLR. Combined with a 49-point AF System, you'll be able to capture the beauty of every movement.

# MORE CREATIVITY

## M-powered creative expression & versatility

## CREATIVE ASSIST

*Adjust compositions, colors & moods*

Make your photo vision a reality. Confirm in real time as you blur or sharpen images, make moods darker or brighter, tones warmer or cooler with the intuitive Creative Assist.

You can also view images shared by others on your camera, select those that impress you, and import the same composition parameters to achieve similar image results.

Creative Filters

Hybrid Auto

Then there's the Creative Filter function where you can apply filter effects – like fisheye and monochrome – to achieve unique images. Add to this the convenience of a user-friendly LCD touchscreen and nothing is left to chance.

Plus with Hybrid Auto, you can string together a movie digest seamlessly!

## MANUAL MOVIE

*Achieve Full HD quality movie effortlessly*

AV, TV or ISO can be changed prior to/during recording via the LCD screen for flexible expression. Even switches in focal point are easily executed to enhance movie-making. And with MP4 recording capability, compatibility across smart devices is seamless.

Macro lens

Tele-photo lens

## EOS SYSTEM COMPATIBILITY

*Over 70 EF Lenses + EOS Accessories*

**EOS**  
System  
Accessories

From dynamic landscape views with an ultra wide angle zoom lens, to a pancake lens that assures supreme portability, the EOS M3 gives you interesting shooting perspectives with the compact EF-M lens line-up. Add on the telephoto-zoom EF-M 55-200mm to get closer to extreme distance subjects. Using a mount adapter, you can expand your versatility by linking up to over 70 other EF lenses such as a macro, to observe minute details. And with EOS accessories such as external speedlite and remote controller, your versatility knows no bounds!

## CONNECT AND SHARE

*To smartphones, to printers  
To transfer, to upload*

The EOS M3 does it all: Share on social media, playback on screen, view, print directly from compatible printers. You can also use your Canon's Camera Connect app (available in both App store & Google Play) to control the camera, shoot and transfer images captured to your smartphones. There's also Near Field Communication (NFC) and cloud link to Canon Image Gateway (CIG) to complete the connectivity experience.
